We support the formal placement of students as a contribution towards training professionals for the community and health sector. Students seeking work experience or wishing to complete placements can contribute to the work we do within the community.

We offer certificate level placement and tertiary student placements in the following areas:

- Adult physiotherapy
- Adult occupational therapy
- Counselling
- Dietetics
- Early childhood education
- Health promotion
- Housing
- LGBTIQ+ support
- Paediatric physiotherapy, occupational therapy or speech pathology
- Social work
- Social support and respite

Volunteers

Our volunteers are vital to the success of the services we offer. Volunteering offers people the opportunity to share and develop their skills and contribute to their local community.

Sign on as a regular volunteer or join our casual volunteer pool, and take part in:

- Assisting with children's programs
- Building the confidence of social support group participants
- Encouraging older people to maintain mobility
- Helping out our staff at community events
- Assisting in supporting health and exercise programs

We aim to have a pool of social volunteers of all ages who want to invest some of their spare time back into the community.

Rainbow Volunteers

Our rainbow volunteers bring with them the wisdom of their lived experience to assist with the delivery of LGBTIQ+ youth, adult and intergenerational programs and events.
